The College and Career Readiness Indicators (CCRI) report is an annual collaboration between the State of Hawai‘i Department of Education and the University of Hawai‘i, coordinated by Hawai‘i P-20 Partnerships for Education.

The CCRI presents information on how well Hawai‘i graduates are prepared to meet the DOE’s Vision of a High School Graduate. This year the format has been changed to include data from the Class of 2009, 2010 and 2011 (Class of 2009 and 2010 have been previously reported.) The full reports can be found at: http://www.p20hawaii.org/node/122.

**College Enrollment**

College enrollment is based on enrollments for the fall semester following high school graduation. Statewide, the Class of 2011 shows a 3% increase in college enrollment over the Class of 2010.

**Nationwide: (includes University of Hawai‘i)**

2009: 50% of the Class of 2009 enrolled in college for the Fall 2009 semester.
  - 23% of Hawai‘i public high school 2009 graduating seniors went on to a four-year college, and 27% went to a community college.

2010: 50% of the Class of 2010 enrolled in college for the Fall 2010 semester.
  - 24% of Hawai‘i public high school 2010 graduating seniors went on to a four-year college, and 26% went to a community college.

2011: 53% of the Class of 2011 enrolled in college for the Fall 2011 semester.
  - 26% of Hawai‘i public high school 2011 graduating seniors went to a four-year college, and 27% went to a community college.

**University of Hawai‘i:** UH remains the first choice of DOE graduates.

2009: 41% of the Class of 2009 enrolled at one of the ten UH campuses for the Fall 2009 semester. This represents 76% of graduates that entered postsecondary education.

2010: 39% of the Class of 2010 enrolled at one of the ten UH campuses for the Fall, 2011 semester. This represents 78% of graduates that entered postsecondary education.
2011: 40% of the Class of 2011 enrolled in one of the ten UH campuses for the Fall 2011 semester. This represents 80% of graduates that entered postsecondary education.

2011 College Enrollment by High School (Non-Charter High Schools)

Kalani continues to top the state with 81% of their students entering postsecondary education. At 73% Kaiser had the next highest postsecondary enrollment, with Mililani, Roosevelt, Moanalua and Waiakea following at 67%

Waianae has the lowest college going rate at 32% for the Class of 2011.

Nanakuli continues to make steady gains in their college going rate from 21% (2009) to 27% (2010) to 33% for the Class of 2011.

College level/Remedial or Developmental Mathematics and English enrollment (UH only):

Mathematics:
- 2009: More than a third of Hawai'i public school graduates who enrolled in the University of Hawai'i system following graduation last year needed remedial instruction in math (38%).
- 2010: Remedial/Developmental Mathematics decreased from 38% to 36%, with college level math increasing by 1% from 20 to 21%.
- 2011: Enrollment into college level mathematics increased by 1% (20 to 21%). Remedial or Developmental Mathematics enrollment rates remain the same at 36%.

English:
- 2009: More than a third of Hawai'i public school graduates who enrolled in the University of Hawai'i system following graduation last year needed remedial instruction in English (35%).
- 2010: College level English increased from 35 to 36% with remedial or developmental English decreasing from 35 to 33%.
- 2011: Graduates continue an upward trend in college level English enrollments from 36 to 38%. Remedial or developmental English decreased from 33 to 32%.

Additional data from 2011 CCRI:

The number of students taking the SAT increased to 51% up from 44% in 2009. SAT scores remain relatively the same with 2011 scores averaging the same as 2009 scores.
- Reading: 454 Math: 474; Writing: 441
Hawai‘i State Assessment: Class of 2011 took Reading and Math in 10th grade. Science scores are not available for this graduating class.
  o Reading scores continue an upward trend increasing from 60% (2009) to 62% (2010) to 65% (2011).
  o Math scores continue an upward trend increasing from 39% (2009) to 43% (2010) to 45% (2011).

Advanced Placement (AP): There was an increase of 878 students taking the AP Subject Exams over 2010.
  o However, scores of 3 of 5 (with a score of 3 as the minimum score to earn college credit) decreased by 1% in 2011, from 42 to 41%.
