For Hawai‘i and its residents to be competitive globally, we must increase the educational attainment of our residents. By year 2018, 65% of all jobs available in the state will require at least some postsecondary training or education. To prepare for a successful state economy, we need:

- More children in quality early education programs and entering kindergarten ready to learn;
- More children reading at grade level by third grade;
- More youth graduating high school ready for success in careers and college;
- More high school graduates entering college directly from high school and earning their degrees in a timely manner; and
- More college graduates meeting the state’s workforce needs.

For Hawai‘i and its residents to be competitive globally, we must increase the educational attainment of our residents. By year 2018, 65% of all jobs available in the state will require at least some postsecondary training or education. To prepare for a successful state economy, we need:

- More children reading at grade level by third grade;
- More youth graduating high school ready for success in careers and college;
- More high school graduates entering college directly from high school and earning their degrees in a timely manner; and
- More college graduates meeting the state’s workforce needs.

This report presents information on how well Hawai‘i’s graduates are prepared for career and college success and to achieve the State of Hawai‘i Department of Education’s Vision of a High School Graduate. The indicators are selected from data currently available and based on recommendations from the report, Measures that Matter: Making College and Career Readiness the Mission of High Schools (http://www.achieve.org/node/79).

The College and Career Readiness Indicators report is an annual collaboration between the State of Hawai‘i Department of Education (DOE) and the University of Hawai‘i, coordinated by Hawai‘i P-20 Partnerships for Education. Hawai‘i P-20 issues this report each spring for the previous year’s graduating class. It includes DOE graduate placement into college-level math and English courses and information provided by high schools about their graduating class. Additional report measures are expected to be added as data become available.

- **(# & % of graduates enrolled in UH)**: † † † 1,603 (35%) 1,509 (36%) 1,668 (38%)

### Remedial or Developmental English

- **(# & % of graduates enrolled in UH)**: † † † 1,583 (35%) 1,376 (33%) 1,407 (32%)

---

**School Reported College and Career Indicators**

No additional college/career readiness information provided by the school.

---

**Notes:**

++ Class of 2011 on-time graduation rate is calculated using the U.S. Dept. of Education Adjusted Cohort Graduation Rate (ACGR). Please see the 2011 Technical Manual for more information.

* HSA for Science is not available for this graduating class.

‡ These data represent graduates’ confirmed college enrollment following high school graduation and are based on reports provided by the National Student Clearinghouse. Hawai'i P-20 recommends that schools may estimate their actual college going rates to be approximately six percentage points higher than confirmed Clearinghouse enrollments. For further explanation, see technical report at [http://www.p20hawaii.org/indicators_report.html](http://www.p20hawaii.org/indicators_report.html).
